A LLIED HEADQUARTERS, In North Africa, May 26.—Several more Axis Mediterranean bases today knocked out of operation as a result of attacks by American and British air squadrons of nearly 400 bombers and fighter planes, which smashed at the enemy over a 600-mile stretch of sea extending eastward from Sardinia to Greece.

Allied bomber and fighter planes from North Africa subjected the Italian islands of Sardinia, Sicily and Pantelleria to heavy new blows while squadrons from the middle east hit at both Sicily and the Preveza seaplane base in Greece.

Hit Messina, Sicily

Heaviest of the new air attacks in the mounting campaign to immobilize the Axis in the Mediterranean appeared to have been carried out by four-motored United States Flying Fortresses which blasted the naval base at Messina, Sicily, and wrought havoc in rail yards and the dock area.

The American and British airmen conducting the attacks on the islands knocked down a total of

PA NEW OBSERVES

Under strict interpretation of the regulations imposed in the ban on pleasure driving autos can be driven in very few instances. The regulations are super-drastic.

"Susie," a pet field spaniel dog and a favorite of the Wilmington avenue district, was hit by a car last evening about 11:15 o'clock, and with injuries "Susie" has disappeared. It is believed by her owners, Mr. and Mrs. Carl Wallace, 906 Wilmington avenue, and the driver of the car who stopped and joined in the search for Susie, that perhaps she has crawled into a garage of some corner and not able to get out. It is hoped that residents in the vicinity will be on the look-out for the puppy and contact her owners immediately and give whatever information they may have, so she can be given the necessary medical attention.

Expect Approval Of New Tax Bill Compromise

By WILLIAM S. NEAL
(International News Service)

WASHINGTON, May 26.—Congressional leaders today predicted speedy approval of the joint conference agreement on the first pay-as-you-go tax bill in history, which is based on abatement of 75 per cent of one year's tax liability.

Chairman Doughton (D) N. C. of the House ways and means committee, said the House will be asked to vote on the compromise agree-

ment on Friday. The Senate may also act the same day.

Likely To Be Signed

While Treasury representatives fought the plan to the bitter end, Democratic leaders appeared confident that President Roosevelt will sign the bill.

The new measure, it was predicted, will result in "freezing" present individual income tax rates at present levels for two years. Under the

NEW MODERATOR TO BE SELECTED

(Special To The News)

NEW WILMINGTON, May 26.—Approximately 150 delegates from all parts of the United Presbyterian world have arrived in New Wilmington, to attend the sessions of the general assembly of the United Presbyterian denomination, which will be formally opened at the college chapel of Westminster college at 7:30 o'clock this evening.

Featuring the business of the evening, which marks the opening of sessions that will continue for several days will be election of the moderator of the denomination to serve for the ensuing year. While no unanimous sentiment is prevalent, there appear to be a number of candidates with a considerable following, as the hour for the choice is nearing.

Preceding the election of the moderator, Dr. Thomas C. Pollock, of Philadelphia, who has served as moderator during the past year, will deliver the address of the evening.

Numerous reports of organization, etc., will also be presented at the initial program of the assembly.

On Thursday formal discussions of the business before the church assembly will be taken up.

A pre-assembly program is being carried out today.

WASHINGTON, May 26.—Government and congressional tax experts today emphasized that the June 15 income tax installment must be paid regardless of the pay-as-you-go tax bill agreed upon by the senate-house conference.

Tax payments made last March 15 and next month will be treated as payments on the 1943 tax bill.

The new tax measure forgives a year's taxes for those whose taxes are under \$50 and abates 75 per cent of the 1942 or 1943 tax, which ever is less, for persons whose liability is over \$50. The remaining 25 per cent must be paid in the next two years.

The self-employed, such as doctors and lawyers, must make quarterly estimates of their income and pay taxes accordingly. They are required to file their first declaration for 1943 on Sept. 15 and an amended declaration Dec. 15.

THREE LANDLORDS FACE COURT ACTION

(International News Service)

PITTSBURGH, May 26.—Three Jeannette landlords, John J. Morris, Michael G. Morris and Mary P. Hoien, were temporarily enjoined today by Federal Judge F. P. Schonemaker from collecting more than \$10 a month rent on each of two properties in Grapevine.

The landlords, it was charged, have been collecting \$13 monthly for a year in violation of rent control regulations. Final hearing on the injunction was set for June 4.

The OPA office said the defendants ignored all official correspondence, and had refused to register the properties as required under the maximum rent act.

Battle Of Attu Is Nearing End Navy Believes

Report One Of Three Remaining Jap Positions On Attu Is Wiped Out

U. S. FORCES KEEP UP STEADY ATTACKS

By JOSEPH A. BORS
(I. N. S. Staff Correspondent)

WASHINGTON, May 26.

The navy reported today that U. S. land forces, backed up by waves of bombers and fighter planes, wiped out one of the three remaining Japanese positions on Attu Island in the Aleutians.

American forces then turned to attack another Jap position and fighting was reported as "continuing." With one Jap position wiped out, and an assault on the second position started, navy officials believed the end of the battle is now in sight.

According to the navy, U. S. ground troops, supported by heavy medium bombers and Lightning fighter planes, wiped out Jap detachments entrenched along both sides of Chichagof valley.

The Japs, until this American advance, had held Chichagof valley, Chichagof harbor and a position on the north side of Lake Nicholas on Attu. With the enemy troops cleared out of the valley, the Yanks began an assault on the north ridge of the valley overlooking Chichagof harbor.

Far-Reaching Court Decision About Teachers

(International News Service)

HARRISBURG, May 26.—In a far-reaching decision, the state supreme court today affirmed a superior court ruling sanctioning the dismissal of teacher as "incompetent" if she was to become a mother.

A unanimous opinion was returned by the high court after Mrs. Gertrude K. Brown, of Bethlehem, contested the decision of the superior court overturning rulings by Dr. Francis B. Haas, state superintendent of public instruction and the Northampton County court.

Mrs. Brown was a dental hygienist for the Bethlehem school district.

She asked school board officials for a sick leave until her child was born, but the board ruled that pregnancy was a condition that could be avoided and ordered her dismissed.

Crew members include: Capt. John H. Shaw, navigator, Woodland, Pa.; S-Sgt. Kerfoot D. Hosack, gunner, Scranton Hill, Pa.; and Sgt. Blaine B. Utter, second radio operator, Sayre, Pa.

Ax is Warned

The Axis had a warning from the British Prime Minister's own lips that these decisions call for waging offensive action on both the Pacific and European fronts with the utmost intensity.

Tokyo, Berlin and Rome were told that the Allied animal is now the far stronger one, and that it will shake the life out of the enemy.

Japan was left guessing today as to what are the sound and good conclusions which Churchill said he and the president have arrived at concerning the best method of intensifying the war against the Empire of the Rising Sun.

Deaths of the Day

John Lowry

John Lowry, aged 19 years, of Volant, R.D. 1, met death in an unfortunate accident. Tuesday afternoon at 2:45 p.m., when he was crushed with a shovel while at work for the Interstate Construction Company, near Grove City. He died enroute to the Baseline Hospital, Grove City.

Heavy bombers of the United States Ninth Air Force in the middle east swarmed in over the Messina ferry terminal prior to the attack by Flying Forts from North Africa to score hits on railway sidings and naval oil depot. As they came away numerous fires were blazing.

Batter Nazi Base In Greece

This raid was disclosed in a communiqué from Cairo which said that long-range fighter planes of the Royal Air Force yesterday battered the Nazi-controlled Preveza seaplane base in Greece. They blew up one seaplane and set fire to three others.

The latest attacks by the North African air forces knocked out of commission railway yards, docks and power plants and followed by less than 24 hours the terrific raid on Sardinia by more than 300 American bombers and fighters.

In the course of yesterday's raids, the Axis air force rose in strength in an effort to reduce the bomb devastation, but found itself outnumbered and outmastered, with the result that another 23 enemy aircraft were knocked from the skies.

This means that in the last week alone the dwindling strength of Adolf Hitler's aerial arm has been cut down by a total of approximately 350 craft of all descriptions.

AXIS FORCES SEEK TO BOLSTER DEFENSES

(Continued From Page One)

aerial bombardments indicate, however, that soon there may be little of military importance to defend of the islands.

The Nazi-controlled Paris radio quoted a Rome report stating that the entire residential quarter of Catanica, on the coast of Sicily, had been destroyed by bombing.

The Rome radio itself said that all civilians were evacuated from Cagliari, capital of Sardinia which is located on the southern shores of that island.

plan the 25 per cent of one year's liability, which is not abated, must be paid in addition to the regular income tax in those two years.

The conferees, after five days of discussion, adopted the basic provisions of a compromise for the the Ruml pay-as-you-go plan proposed by Sen. George D. Ga, chairman of the Senate finance committee. The new tax bill provides:

20 Per Cent Withholding Tax

One hundred per cent cancellation of one year's income tax for 1942 or 1943, whichever is less, if the tax is less than \$50. This is expected to cancel taxes on at least \$3,500,000 taxpayers.

Seventy-five per cent abatement of the 1942 or 1943 tax, whichever is less. For persons whose tax liability is over \$50.

Experts were instructed to work a "notch" provision to smooth out the difference between 100 and 75 percent abatement for those whose tax liability is slightly above \$50.

A 20 per cent payroll withholding tax is levied beginning July 1, to apply on 1943 taxes.

Infant Carolyn Sue Kelso

Infant Carolyn Sue Kelso, daughter of Clare and Helen Weisz Kelso, of R. D. 2, Union township, died this morning at 5 a.m. in the Jameson Memorial hospital. She was born on May 12, 1943.

In addition to her parents, she leaves her grandparents, Mr. and Mrs. Fred Weisz, and grandmother, Mrs. Margaret E. Kelso.

Private funeral services will be conducted Thursday afternoon at 2:30 o'clock from the residence, with Rev. Robert Meade Patterson, in charge. Interment will be in Castleville Burial Park.

Mrs. Twila Watt

Mrs. Twila Watt, aged 53 years, of 108 Sankey street, wife of Adrian C. Watt, died this morning at 1:20 o'clock in the New Castle hospital following an illness of two weeks duration.

Mrs. Watt was born in Folk Creek, Pa., November 16, 1889, daughter of Euriah and Ella Moore. For the past 35 years she had been married to Adrian C. Watt, who survives. Mrs. Watt was a member of the Nazarene church.

PROGRAM TUESDAY ENDS
SEASON FOR MUSIC CLUB

Closing a highly successful year, the Music Club met in Highland United Presbyterian church Tuesday evening, with Mrs. Clifford M. Propst presiding as hostess. To a large audience, a program of unusual merit was presented.

Operatic arias were sung by Miss Margaretta Hess, Mrs. Paul L. Friend, Mrs. Dorothy Gormley Smith and Miss Julia Johns. Miss Hess and Mrs. Friend were accompanied by Mrs. Kathryn Allen and Mrs. Jay Reed, accompanied Mrs. Smith and Miss Johns.

Piano compositions by composers of the Romantic period, were played by the Misses Marjorie Allen, Geraldine Anderson and Carolyn Rocks, the latter two playing a two piano number.

As a fitting climax to a program whose vocal theme was the opera, The Music Club Chorus under the direction of Mrs. William J. Caldwell presented "Fantasia" from Lothringen by Richard Wagner. Mrs. George E. Streicher briefly told the story of the opera "Lothringen" and solos were sung by Mrs. James W. Stoerhead, Miss Margaretta Hess and David Rees.

The choir was capably accompanied by Mrs. Kathryn Nessel Allen who was aided by Miss Ruth Wren, at rehearsals.

Mrs. Caldwell and Mrs. R. M. Wilson, manager of the chorus, deserve unlimited credit for keeping the chorus interested and working together so constantly, in these trying times.

Ushers last evening were Mrs. Samuel J. Rashid, Miss Evelyn Bernine and Mrs. Paul Laderer.

Union Label League

Members of the Women's Union Label League met in the Trades and Labor Assembly hall, Tuesday evening. Contests were captured by Mrs. Margaret Hartman and Mrs. Frances Rogan.

POST-WAR DREAMING

THERE is entirely too much dreaming about machines and equipment to appear miraculously as soon as the war ends, declares E. F. McDonald, Jr., president of Zenith Radio Corporation, in a communication to radio dealers. He warns that "crystal gazing" will lead to disappointment because when peace comes time will be required for the perfection of new ideas.

He holds that it is wrong to "kid" the public into believing that after the war an Alice-in-Wonderland automobile will be purchaseable for a song and a combination radio-phonograph-television set will be obtainable for a few cents a month. He hazards the prediction that television will become a great industry when a means is found of paying for the programs, but adds that nobody has been able to work out a "box office" as yet.

McDonald has emphasized his warning to dealers to take the wind out of post-war crystal gazers by enclosing illustrations of some of the "crazy ideas" he is trying to head off. Revolutionary changes in household utilities and luxuries cannot come over night, the manufacturer points out. The load that will be placed on all factories to turn out existing models will be so tremendous that immediate retooling for new models will be out of the question.

FREEZING FOOD

The food locker plant, which was first launched in 1934, has grown until today the investment in these facilities totals \$75,000,000. This system of food preservation has been expanding rapidly, especially in the Middle West.

It is estimated that one and one-half million individual lockers are now in use with \$200 worth of food passing annually through each, a grand total of \$39,000,000 turnover.

Current food shortages and higher prices have popularized these cold storage facilities. The department of agriculture estimates that a family can save more than \$100 a year by the use of a food locker. Quick freezing preserves the flavor, texture and vitamins of food, which is a boon to Victory gardeners and those within buying distance of food producing areas.

SUPER-BOMBER IN PROSPECT

This nation's new secret weapon, a super-bomber, is to be in production early next year. Details of its construction will be kept secret as long as possible—certainly until after it gets into action and has delivered telling blows against the Axis in Europe or the Japanese in their homeland.

Charles E. Wilson, executive vice president of the War Production Board, is authority for the statement that it is planned, and that work on it is already being rushed. He has shied away from all direct questions regarding the new plane, but he told newspapermen that by April, 1944, schedules call for the production of today's heavy bombers at a monthly rate eight times greater than in the same period in 1942.

"And this does not include the scheduled output of new super-bombers," he added.

LEAVING ITALY OUT ON A LIMB

Even before the total passed the 300 mark the large number of Axis planes destroyed in the incessant American bomber raids against Italian islands and the mainland was astonishing. It is a companion symptom to the virtual absence of aerial defense against our planes.

Usually the enemy aircraft have been destroyed on the ground. The element of surprise can hardly explain this in every case, or in many cases. The condition raises the question whether the Fascist Army is low on gasoline. Certainly, with one or two exceptions, anti-aircraft defenses of places attacked have appeared to be inadequate.

There is only one source where Mussolini could get gasoline or anti-aircraft guns and the ammunition for them, and that is Germany. It's been pretty clearly indicated that Mussolini's appeals for the guns haven't got him to first base with Adolf.

It looks very much as if Hitler is at his old trick with his Italian victims, leaving them to take the pounding of our bombers and fight a hopeless delaying battle as his rear guard to give him a little more time to prepare for the onslaught where he'll have to do his own fighting.

The sooner the Italian people fully realize this game and call a halt to it the better it will be for them, though not for Hitler's tool, Benito.

IN THE ALEUTIANS

Imposing a map of Alaska and the Aleutians upon a map of the United States, the United States News manages to make clear some of the difficulties of the campaign to drive the Japanese out of Kiska and Attu. This doubling up puts Seward, Alaska, at Washington, District of Columbia; Dutch Harbor at Meridian, Miss.; Kiska at Lubbock, Tex.; and Attu not far east of Albuquerque, N. M. It is 700 miles from Seward to Dutch Harbor; 450 miles from Dutch Harbor to Adak, the island base where American forces landed some time ago; 183 miles from Adak to Amchitka, another island base; seventy-two miles from Amchitka to Kiska; and 196 miles from Kiska to Attu. Nor is this the only table of magnificient distances, for down from Seward, the Alaskan base, stretches 1,632 miles of the Alcan highway, and below that road's terminus a longer supply line to American factories and supply depots.

Not even the imposition of one map on another can give a notion of the physical difficulties of operations in islands where fog is king, where the weather moves from west to east, with the Japanese first to know its vagaries. The army and the navy have worked well together, under great difficulties, in this arduous campaign. They have not always revealed their accomplishments at the time that they were done, but they have had first in mind the concealment of information from the enemy, notably nervous about every development in the islands that point the way to the heart of Japan.

United States submarines have sunk or damaged 222 enemy ships since Pearl Harbor. That's retribution with a vengeance.

When Mussolini's fate is debated, it should not be forgotten that Haile Selassie has priority on him.

Forty-three nations have delegates at the secret food conference in Virginia. It should be remembered that they didn't bring food nor the money to pay for any.

The Parent Problem

By Garry C. Myers, Ph. D.

RESTRAIN CHILD

During all the years I have been teaching, lecturing and writing on child development, child and youth guidance and protection, I have said repeatedly that proper education of parents is the best approach, next to that of religion, to better citizenship and reduced delinquency and crime.

Yet I know it is a slow process since few parents want to be educated. All the forces for leading our children to do wrong have gained faster than the forces for right, it seems.

Moreover, it has seemed to me that practically all the articles, books and teachings on parent education have omitted one essential item. They have had practically no place for restraint. Practically all writers and teachers to and of parents have centered all their efforts on love, understanding and permission, all of which are certainly essential. Yet they alone are inadequate. They lose their effectiveness in leaving out restraint. How can you always be pleasant to a child who has no regard for your authority or that of anybody else?

The rank and file of writers and teachers on child guidance not only have failed to advise restraint but they have almost constantly advised against it. Any reader knows the foregoing to be true. Youngsters from 10 to 16 flocking into our growing army of juvenile delinquents are of the unrestrained, unspanked generation.

From All Social Levels

It appears, moreover, that these delinquents are coming from all levels of education and family background, with the rate gaining in the upper socio-economic brackets—since the intelligentsia of America have been the first to accept the doctrine of no restraint of children.

But thousands of the delinquent girls and hundreds of their mothers received some instruction in home economics courses in our public schools on child care and training. Yet nearly all such were told at school that inhibitions are bad for the child, that restraints of the child at any age will dangerously warp his personality, that spanking even of the tot is taboo. The books, pamphlets and magazine articles put into these students' hands supported this instruction; and teachers of such courses were, most of them, trained in college in the no restraint doctrine. Of course, the war with all its attendant factors has been an immediate stimulant toward youthful wrong-doing, but certainly not the chief cause. We were swinging upward in juvenile delinquency and crime long before Pearl Harbor.

A few wise mothers using their common sense are teaching their little children the meaning of NO in a family atmosphere of love and understanding. In such mothers is the hope of America.

Solving Parent Problems

Q. Can a parent hope to cure thumb sucking by scolding or punishing?

A. No. My special bulletin on thumb sucking and similar habits may be had without cost to you, by writing me at 235 East 45th street, New York City, enclosing a self-addressed envelope with a three-cent stamp on it.

Q. What is the most frequent cause of a child's lagging or failure in such subjects as history, English and general science?

Sees Chance For \$12,000,000,000 Highway Bill Now

Snyder Of Pennsylvania May Finally Be Heard On National Super-Highway Bill

(International News Service) WASHINGTON, May 26.—Rep. J. Buell Snyder (D.) Pa., today predicted his bill to provide a system of major "super-highways" in the United States at a cost of \$12,000,000,000 will be brought out—at long last—during this session of congress.

Snyder, who has introduced practically the same measure eight times since 1936, pointed to the great need for such a system of highways and said its construction would give work to 3,000,000 men in the post-war period.

Both the army and the house committee on roads he asserted, favor a similar program, with the roads department advocating "more of a turkey foot layout" than Snyder's highway plan.

Snyder's system would create three broad roadways for express traffic running east and west and six north and south, totaling 18,000 miles in all.

This super traffic program would require four years in the building, Snyder declared, and would by-pass all cities. It would be built of concrete with a 700-foot right of way.

Another feature of his super-highways would be the airplane landing facilities he explained, providing 16,000 miles of emergency landing space.

WAKE UP YOUR LIVER BILE—

Without Calomel—And You'll Jump Out of Bed in the Morning Rarin' to Go

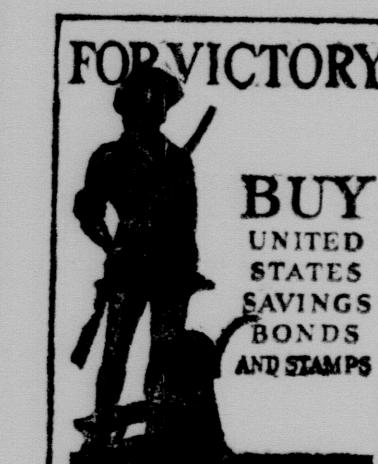

The liver should excrete about 2 pints of bile juice into your bowels every day. If this bile is not flowing freely, your food may not digest. It may just decay in the bowels. Then gas backs up your stomach. You get constipated. You feel sour, sick and the world looks pink.

It takes those good, old Carter's Little Liver Pills to get those 2 pints of bile flowing freely to make you feel "up and fit." Get a package today. Take as directed. Effective in making bile flow freely. Ask for Carter's Little Liver Pills. 10¢ and 25¢.

Governor Plans Drive To Junk Worn Out Cars

(International News Service)

HARRISBURG, May 26.—Gov. Edward Martin announced Tuesday a campaign next month to junk worn out automobiles for conversion to scrap and ultimately into bombs and other war material to battle the Axis.

"Pennsylvania," the governor stated, "which leads all other states in the production of war materials, must continue its aggressive salvage efforts. There is a need for additional iron and steel scrap to keep our war plants in operation and as we go about the state, we see many abandoned cars, which have outlived their usefulness."

"Every old car that is not being used for transportation should be sold to the auto graveyards during the month of June . . . The iron and steel in every worn out car is needed today for the manufacture of bombs, torpedoes, guns, tanks and other implements that our fighting men must have."

Persons interested in accepting part time or full time agricultural jobs should register immediately with the representative nearest them or at the local U. S. E. S. office, where they may get in touch with Mr. Priscaro or Mrs. R. Bechtol.

Agricultural employers who need help may likewise contact any of the representatives listed above or the U. S. E. S. office.

The above list of Volunteer Farm Placement Representatives, Mr. Priscaro suggests, should be clipped for reference by interested persons.

Lions Club Has Business Session

Reports on various activities occupied the attention of Lions club members at their meeting in The Castleton, Tuesday noon.

Five new members were initiated. They were: Francis Sowersby, Earl M. Brookover, William R. Voorhis, Edward W. Leary, and Albert H. Bauman, Jr.

Charles Bashew, chairman of the Blind Seal Sale committee, reported receipts from the seal sale of \$60.50. Five requests for glasses were received during the month, and three pairs of glasses were purchased, two others being held under advisement. Expenditures for glasses totalled \$55.

You Women Who Suffer From HOT FLASHES then CHILLY FEELINGS

If you—like so many women between the ages of 38 and 52—suffer from hot flashes, weak, dizzy, nervous feelings, distress of "irregularities," are blue at times—due to the functional middle age period in a woman's life—try taking Lydia E. Pinkham's Vegetable Compound *at once*. It's the best known medicine you can buy that *made especially for women*.

Pinkham's Compound is famous to relieve such distress. Taken regularly—it helps build up resistance against such annoying symptoms. It also is a fine stomachic tonic.

Thousands upon thousands of women—rich and poor alike—have reported benefits. Time and again Lydia Pinkham's Compound has proved some women's happiest days often can be during their "40's." Follow label directions. *Worth trying!*

In the "SIGNAL CORPS" of the Home Front

The man who comes to fix your telephone these days is likely

to have a few gray hairs. Many of our younger men have taken their skill with wires into the Signal Corps. And many more have gone into other branches of the armed forces.

The telephone veterans on the home front are doing a war job, too . . . working day or night so that war industries, government offices, the armed forces—and *you*—may find swift communication always ready to get the message through!

**Interim Commission
On Food Proposed By
U. S. At Hot Springs**

Chairman Jones Asserts Pres-
ent Conference Not Con-
cerned With Relief

By WILLIAM THEIS

HOT SPRINGS, Va., May 26.—The first United Nations food conference closed the hopper on further projects today after receiving a United States proposal calling for establishment of an interim food commission not later than July 15.

The commission to carry on the work of the Hot Springs conference, it was clearly indicated, will be located in Washington, D. C.

And as the decks were cleared for the real work of the delegates of 45 government meeting at this mountain resort, Conference Chairman Marvin Jones and the American delegation issued these statements of "reassurance" to the American people and the world at large:

1. Present conference has "nothing whatever" to do with relief during or after the war. This will be considered by the relief conference soon to be called.

2. The American delegation will see that United States "interests are protected."

Prime function of the United Nations Interim Commission on Food and Agriculture, the U. S. resolution set forth, would be the "formulation and recommendation to the member governments of a specific plan for a permanent international body to deal with the problems of food and agriculture."

The commission proposal provides that each government represented at Hot Springs would appoint one member to the Interim Commission. Thus a 45 man body plus any working personnel it sets up would inherit the task of working out a revision of world agricultural economy expected to set the pattern for even broader international collaboration in the post-war years.

CHICAGO PASTOR MAKES ADDRESS TUESDAY NIGHT

Speaks At Pre-Assembly Conference Of U. P. Delegates

At Westminster

(Special To The News)

NEW WILMINGTON, May 26.—The Church of Christ today must recapture the sense of divine appointment and of Kingdom enterprise," Dr. Harry J. Hager, pastor of the Bethany Reformed church, Chicago, told representatives to the 85th General Assembly of the Unit-

ed Presbyterian church of North America in the opening address of the pre-assembly conference here at Westminster college last night.

"All other aspects of our national and international life have become mobilized or are in the process of rapidly becoming so. Is the church on a war footing?" Dr. Hager asked. "In relation to its commitments to the gospel of Christ, have we passed definitely from the defensive to an aggressive out-reaching into all the uncharted and unclaimed areas where the Gospel has not yet penetrated?"

The church has always had the responsibility of mobilizing itself and maintaining itself on the basis of a ceaseless campaign, but this sense of calling is greatly accentuated in the present hour of crisis.

The present crisis has it in three elements—that of danger, that of opportunity, and that of need."

Lend-Lease Aid Analysis Given Congress By FDR

U.S. Out-Building Axis In Every Way, Delivering In Huge Amounts

BRITAIN GETS MOST, RUSSIA MORE GUNS

By HORACE M. COATS

(T. N. S. Staff Correspondent)
WASHINGTON, May 26—Foreseeing "complete victory," President Roosevelt Tuesday stated in a lend-lease report to congress that the United States is out-building the Axis aggressors in every category of modern arms" and "delivering them" in amounts necessary for "offensives that will end only in Berlin and Tokyo."

The report itself, disclosing that "many hundreds of airplanes" were referred to Russia by air, also revealed that the United States provided the United Nations with \$11,102,000,000 of lend-lease aid, with Britain getting the largest share in dollar volume but the Soviet Union getting the most munitions.

In the report, it was promised that the Tunisian victory in North Africa will lead to "further blows to the Axis" that will prove mortal." President Roosevelt was equally as confident. In his letter of transmittal to congress, Mr. Roosevelt asserted that "today we are out-building the aggressors in every category of modern arms."

"And we are delivering them."

the president said with a ring of triumph, "in the amounts necessary to build up the striking power for offensives that will end only in Berlin and Tokyo."

"As lend-lease moves ahead in its third year, our armed forces, our supplies and the combined efforts of the United Nations are driving ahead to complete victory over the enemy."

Lend-Lease Twelve Per Cent

In the ninth report of operations to be made since lend-lease was established March 11, 1941, the president reported that such expenditures have been approximately 12 per cent of the country's total war spending to date. The report covers shipments up to April 30 of this year.

Of the total aid given, the report stated, \$9,214,000,000 represents the value of goods transferred and \$1,888,000,000 represents the value of services rendered to the Allies. Munitions have been 46 per cent of total lend-lease aid; industrial materials and equipment for war production, 22 per cent; agricultural products, 15 per cent, and shipping and other services 17 per cent.

New High In Exports

Exports in March of this year, the report continued, reached a new high, amounting to \$712,000,000, or more than twice as much as in March, 1942, and 20 per cent greater than the previous high month.

While the report revealed that the United Kingdom has received aid totaling \$3,116,000,000, Russia has received \$1,822,000,000, and Africa and the Middle East \$1,000,000, no figures were reported as to the total lend-lease aid given China.

China's share of aid was contained in the report for that nation, included with India, Australia, and New Zealand, the four receiving a combined total aid of \$875,000,000.

The total aid to Russia of \$1,822,000,000, it was stated, was exclusive of the "many hundreds of planes ferried by air."

Over Half To Britain

More than half of the lend-lease munitions sent to Great Britain, the report continued, consisted of bombs, guns and ammunitions. England receiving less of this material "partly because British factories are producing such great quantities of four-engine bombers and fighters for the air offensive against Axis Europe and partly because the British have paid and are still paying in cash for large numbers of planes under contracts entered into prior to the passage of the lend-lease act."

Of aid to China, the report said:

"Of the lend-lease supplies shipped to China, some got in over the Burma Road before the Japanese cut that route, others have reached their destinations by other means and still others are stockpiled ready for delivery. These have included critical tools and raw materials to keep in operation Chinese arsenals, and spare parts to keep trucks rolling over the difficult but vital roads in the interior."

WORK, VITAMIN AND WORK

Work is plentiful just now. Jobs are easy to get. It has not always been that way.

There is more money available than usual too.

We should not get careless about economy.

Vitamins are valuable and necessary. They cost money. Some kinds are more economical than others.

Vitamins are foods. They should be provided at our meals. They do not cost so much that way. They work better too.

Vitamin pills are pretty expensive especially when you do not need them.

Shares In Work Of Driving Axis Forces Out Of Tunisia, Says U. S. Official

New Castle had a dual part in chasing the Axis out of Tunisia. Not only were New Castle men in the thick of the fight but New Castle made bombs were a part of the 16,236,390 pounds of explosives dropped upon the Axis troops in their flight from Allied wrath.

Proof of this statement is seen today in a telegram from Major General Campbell, Chief of Ordnance, to the employees of the Standard Steel Spring Company, R. W. Irwin of the local plant today made public the following telegram from General Campbell:

WASHINGTON, D. C., May 22, 1943.

To the employees of Standard Steel Spring Company:

"American and Allied bombers dropped 16,236,390 pounds of high explosive demolition and fragmentation bombs on the enemy in 386 attacks during the victorious Tunisian campaign. You helped make those bombs. Scattered where they would cause the maximum devastation they shattered harbor, naval base, airfields, tanks, troop concentrations and sank or damaged 191 ships. Your production and workmanship helped make those aerial attacks possible."

CAMPBELL, Major Charge of Ordnance.

Cosmo Members Hear O. C. D. Talk

Numa P. Vidal, of the O. C. D., gave an interesting talk, Tuesday evening, at the meeting of the Cosmo club rooms, North Mercer street.

Mr. Vidal, who is quite active in civilian defense work, stressed the importance of having sufficient persons at the control center, at all times.

Another speaker was First sergeant Isadore Rosenberg, of Macon, Ga., son of Mrs. Annie Rosenberg of 1 East Reynolds street, who spoke on army camp life.

Refreshments were served later by the entertainment committee.

Mead Says Baseball Getting Along Fine; "Football Will Be All Right"

By BILL ZIMMERMAN
L. N. S. Sports Writer

WASHINGTON, May 26.—Sen. James M. Mead (D) N. Y., today proposed creation of a government sports liaison officer to cooperate with the athletic world in promoting sports both for service men and on the home front.

Mead, who has greatly interested himself in the role of sports during the war, said that baseball "is getting along fine," and predicted that football "will be all right," but added that "with a liaison officer the contribution of sports can be increased tremendously."

SUGGEST TIME SHIFT

The New Yorker urged that baseball schedules be rearranged to make it possible for swing shift war workers to attend games. He suggested that games be held between 5 p.m. and 7 p.m. in addition to afternoon and night contests to accommodate the production soldiers.

Organized sports also can stimulate sale of millions of war bonds, he said, pointing to the Monday night game between the Washington Senators and the Norfolk Naval Training station team which drew more than 29,000 fans who bought over \$2,000,000 in war bonds—the second largest sports gate in history.

While sports equipment is being furnished to men in the armed services, Mead said that further steps can be taken to bring sports to America's fighters in North Africa, the South Pacific and other far-flung battle areas.

He suggested special short wave broadcasts of sports. The movies he said, can cooperate by making special sports films which can be shown in army camps all over the world.

WORK WITH USO

A liaison officer, he said, would cooperate with the United Service Organizations as well as other organizations charged with supplying recreation facilities to men in the armed services.

Mead's proposal for a sports officer is similar to that by Rep. Samuel Weiss (D) Pa., who says that sports must be continued during the war for the morale of the nation.

Rainy Day Hodgepodge:

Sports page patrons may and may not know that the Lieut. Frank W. "Dinty" Hamilton, who caused clouds of black smoke to spout from a huge German transport plane, a few days back, wore the red and black football colors of New Castle high about four seasons back. The localite, a P-40 fighter pilot, participated in the now historic and extremely successful raid on Nazi and Italian war craft.

A press release from Puerto Rico to this bureau announces that Sgt. Richard E. Monsey, the popular New Castle golf pro, has been selected to attend aviation cadet school in the states. The Ne-Ca-Hi athlete entered the Army on Oct. 19, 1940 and joined the Air Corps unit in the West Indies 11 days after the sneak blow. Monsey, 26, is among the men of the Antilles Air Task Force stationed on small tropical islands which form the gateways to the three Americas. Here they perform their duties on palm fringed air bases, near Caribbean coastlines of white beaches and blue waters and in the lush tropical jungles of South America . . .

Stuff in the news—Lou Novikoff admits he is not the whole team. He can say that again . . . Bus gasoline rations cut in East 40 per cent. Just about the "kay" sock for many sports that hoped to hang on this summer via the bus medium . . . Bob Montgomery former laundry employee, I'd say that he really learned how to launder. For proof, ask Beau Jack . . .

Add sign of the times: FBI nabs ticket scalper at Phillies-Pirate game. They should put that guy on display. He's certainly a novelty . . . There's a story making the rounds that Tom Shaw, of Baltimore, wagered more than \$150,000 on Count Fleet in the Preakness. Simply proves that Shaw knows a good thing when he sees it. The guy, by the way, is wealthy, or did you guess that? . . .

Odds and ends:—When the Yankees moved out of first place last Sunday, that marked the initial change in the AL top spot in 382 days dating back to May 6, 1942 . . . By asking the referee to stop the bout when he saw blood streaming out of Maxie Shapiro's ear, Henry Armstrong proved that he's still a champ . . . Setback by the Indians Tuesday Sunday, scribes started writing the Yanks' obituary. While the champs were very much on the cheery side on the road swing, it might well to remember that the Injuns never break any records away from Cleveland . . .

Jacobs Has Eyes On Henry-Angott Non-Title Brawl

Moves Swiftly To Frustrate
Cleveland's Attempt To
Grab Bout

BULLETIN
(International News Service)

NEW YORK, May 26.—Promoter Mike Jacobs announced today that he had signed Henry Armstrong and Sammy Angott for a ten round bout to be held at Madison Square Garden on June 11.

Angott is due to arrive here next Thursday from Washington, Pa.

President Mike Donovan announced that the schedule and by-laws will be published in The News in the next few days.

ROUGH SCHEDULE

Notre Dame's 1943 football games are with Pitt, Georgia, Tech, Michigan, Wisconsin, Illinois, Navy, Army, Northwestern, Iowa, Preflight and Great Lakes.

Walter B. Ingalls, high school basketball coach and assistant football mentor at Wellsville, O., has resigned to accept a physical education position at Geneva college. He will act as backfield coach for Head Coach Cal Hubbard . . . Bill Miller of Clearfield, Pa., has been named captain of the University of Pennsylvania Baseball team . . . Dr. Edward S. Elliott, Columbia U. athletic director, will retire next month.

Kingsway, 18 to 1 shot, charged to a head triumph over Pink Flower in the annual 2,000 guinea classic for 2 year olds at Newmarket today . . . Alex Medich, Duquesne pitcher looks good. He has won five games, having fanned 77 batters. Waynesburg high won the Greene county track and field meet with 38 8-10 points. Mt. Morris was second with 31 and Jefferson third with 29 6-10.

But this is the old horse liniment. And deep down we all know it and will, under stress, admit it—rather than be tagged as people who are making a sucker play, just because we don't fancy the idea of somebody rolling over everything as though he had a paving contract with the government. Mike, as a matter of fact, has made a play of his own that proves, in part, that he comes by his monopoly quite honestly.

Moves Swiftly

He moved swiftly to frustrate Cleveland's attempt to grab off a Henry Armstrong-Sammy Angott-N. B. A. lightweight championship fight, as had been reported by the writer. At last accounts, too, hed just about succeeded.

He called the Angott manager, Charley Jones, here and got his asking price for a non-title New York showing, June 11. The price was a \$20,000 guarantee and a privilege of 30 percent. He then gave Jones plenty of dialogue from that point without saying yes or no. The idea being to stall off both Jones and the Cleveland crowd, who had offered \$20,000, while a move was made in another direction.

This direction was obvious. It had to be Bob Montgomery, the new lightweight from New York Edition: since Mike's contract with Henry Armstrong is understood to call for Beau Jack, Angott or Montgomery as the opponent—and Jack is so punched up right now that he won't be available for many weeks.

Short led the onslaught by posting scores of 235.223 and 216. Other members of the team and their scores:

Capt. Anthony Fair, 535; Fred Smith, 553; Arthur Meek, 520, and George Sargent, 538.

Kamensky And Hoover Clash Here Tonight

Star-Decked Calendar Of Eight bouts Ready For Fans

TWO LOCAL BOXERS IN EARLY BOUTS

Tonight is Punch Night in The Arena, 16 amateur pugilistic gladiators having been paired in eight bouts, each being scheduled for three rounds. However the possibility exists that before the Evening Evenin' o'er one or more of the glove-tossers may be knocked out.

The boxing production is destined to benefit the New Castle Hospital Nurses' alumni. Herky Kamensky, nationally known flyweight of Pittsburgh and Chester Hoover, Youngstown, occupy the feature role. The first bell will ring at 8:30 p. m.

Corporal Jackie Fields, former welterweight champion will be among the ring celebrities present.

The docket is crowded with Golden Gloves tournament winners. Of the lot Kamensky has received the most renown because he participated in the national A. A. U. tournament which was held recently in Boston.

Two local amateurs are on tonight's schedule. One is Mark Duddy, a husky 155-pounder who will box Mike Mosak of Aliquippa. Albert Brooks, alias Dominic Felt, a "free-swinger" will oppose Buddy Trippett, Youngstown heavyweight.

According to Matchmaker Tommy Leach of the Jefferson A. C., all the boxers on tonight's card, excepting Duddy and possibly one or two others have graduated from what is known as the Novice or beginners class in amateur boxing.

Expect Big Crowd

Because of an anticipated crowded arena, the Jefferson A. C. will open the doors at 7:30 p. m., the first bout will go promptly at 8:30 p. m., and there will be no delays between battles, which will be supervised by the P. A. C. and A. A. U.

The list of bouts arranged are as follows:

Herky Kamensky, Pittsburgh vs Chester Hoover, Youngstown, 112. Roy Crews, Ellwood City, County champion vs Don De Genther, Youngstown G. G. middleweight champion.

Eddie Timbers, Pittsburgh G. G. 147-pounder tourney winner vs Ray Nulph, New Bethlehem.

Pete Pershol, McKees Rocks 140 pound G. G. tourney winner vs Burrol Charity, Youngstown.

Danny Dantone, McKees Rocks vs Gene Douglass, Youngstown, 126 Youngstown.

Tony Cerone, McKees Rocks G. G. 118 pound G. G. winner vs Red Di Motto.

Mark Duddy, New Castle vs Mike Mosak Aliquippa, 155.

Albert Brooks, New Castle, vs Buddy Trippett, Youngstown, heavyweights.

Rails, Steels And Chemicals
Are Leaders In Advance
During Day

(International News Service)
NEW YORK, May 26.—Stocks were strong today and more active under the leadership of the rails, steels and chemicals.

The advance was a continuation of the recovery that set in the last hour yesterday and established new highs for the bull market that has now been underway more than a year. Volume picked up sharply, running at the rate of substantially better than a million shares.

Several large blocks changed hands in the early trading including 2,500 U. G. I., 2,000 U. S. Steel, and 1,000 share blocks for Anaconda, Pullman, Radio and Greyhound.

Noon profit taking pared morning gains.

A feature of the rails was Santa Fe, which made a new high on a rise of 1%. Central also made a new high but lost it on profit-taking. Large fractional gains, most of which were held, were made by Bethlehem Steel, U. S. Steel, Standard Oil, International Nickel, Westinghouse, Dow, DuPont and International Harvester.

That Extra Something!

...You can spot it every time

GIRLS are in training, too... at universities, under the new pre-graduation program to fit them later for various auxiliaries of the Armed Forces. Ask them if they welcome a chance to pause and enjoy refreshment... the refreshment of ice-cold Coca-Cola. Who wouldn't?

Deliciousness in every drop. Refreshment in every sip. That's ice-cold Coca-Cola. Enjoy a Coke and you enjoy all the difference between something really refreshing and just something to drink.

It's natural for popular names to acquire friendly abbreviations. That's why you hear Coca-Cola called Coke. Both mean the same thing... "coming from a single source, and well known to the community".

After exercise, what could be more welcome than the pause that refreshes with ice-cold Coca-Cola.

AROUND CITY HALL

John Z. Street, city engineer, has returned home from the Cleveland clinic where he underwent an eye operation. He feels fine. However, it may be some time before he is able to return to his post.

Some of the police department members expect to enter Police-

man U. G. Harper in the Tall Story club. He told some of them recently while fishing he saw a water dog chasing a rabbit.

C. C. McKibben, treasurer for the city, reported today there has been a small drop in parking receipts lately and he asserted that if the ban on pleasure driving keeps up it will mean a big dropping off in receipts.

A white leghorn owned by Dr. Peter Simpson, Hooper, Neb., laid 628 eggs in two years.

Mussolini To Get Little Aid

Indications Italy Will Get Scant Aid In Defense Of His Land From Nazis

(International News Service)

LONDON, May 26.—Dispatches from the continent said today that Italy is speeding preparations for defense of her mainland under circumstances indicating that Mussolini will have to fight off any possible invasion with little aid from his Axis partner.

Italian troops, according to a Madrid report to the Daily Mail, are now "standing to" along the whole southern coast of the mainland.

Military reserves, it was said, are being rushed from garrison in central Italy while evacuation of civilians from the danger area has been stepped up.

According to information received by Reuter's News Agency the airfields on the Italian Mediterranean islands of Sardinia and Sicily have been almost demolished by the concerted Allied aerial bombardments pressed with fury since conclusion of the Tunisian campaign. The wreckage of hundreds of Axis planes is said to be strewn across the airfields.

Germany was said to have refused energetic demands by Mussolini that increased aid be dispatched by the Nazi air force and this has led well-informed quarters in Rome to doubt that Air Marshal Hermann Goering's airmen now have the ability to help out, it was said.

Bessemer Graduation Exercises Are Tonight

Commencement Theme Is "United Nations In The War Effort" At Bessemer High School

Twenty-third annual commencement of Bessemer high school will take place this evening in the high school auditorium at 8 o'clock, when a class of 53 seniors will receive diplomas from M. L. Moses, president of the Bessemer Board of Education.

Commencement theme is "The United Nations in the War Effort" with a group of senior honor student speakers to deal with contributions of other countries toward winning the war.

Music will be furnished by the high school band, the senior girls chorus, saxophone solo and vocal duet numbers.

Eleanor Farina will make the valedictory address. Mildred Brodsko is salutatorian. Other honor students who are scheduled to speak are Pearl Stanley, Zora Yards, Norma Jean Cracraft and Evy Swanson.

LOCAL SOLDIER RECEIVES KNIFE

Mr. and Mrs. L. M. Shields have received word from George Funk, who is with the infantry on a Pacific island, stating that he received a knife which they secured from Captain William E. Ferver of this city. The knife was given to Captain Ferver by D. H. Hutcheson, Pennsylvania Power company station employee for someone in the service. In January, Mr. and Mrs. Shields sent a box to Funk and they have received a letter stating the knife was received in the box.

He said that knives are very valuable and the soldiers need them as part of their equipment. His letter also stated that knives bring as high as \$50.00 in the Pacific battle area where he is stationed.

The text of the order is as follows:

"The war department has announced that it will no longer be necessary that the requests of army personnel overseas for articles to be sent such personnel be approved by a commanding officer, provided that not more than one parcel shall be accepted for mailing in any one week, when sent by or on behalf of the same person or concern to or for the same addressee, and provided further that the parcel otherwise conforms in all respects to the limits of weight and size and other conditions set forth in Order 19687, dated January 7, 1943, published in the Postal Bulletin of January 8, 1943, and in the supplementary instructions published in the Postal Bulletin of March 12, 1943."

Parcels presented under this modified arrangement must be accompanied with the written request for the articles contained therein, together with the envelope bearing the A.P.O. cancellation in which the request was received.

"The request shall be postmarked
